PROFILE

Highly motivated and dedicated individual seeking an internship position in Dot Net Development to leverage my skills and gain practical experience in a professional setting. I am eager to contribute to the development of innovative software solutions and further enhance my knowledge of software development methodologies.

EXPERIENCE

INDUSTRIAL VISIT   • 2022 - 2023

HAIER, INDUSTRIAL PARK

- During our recent industrial visit to Haier company, we had the opportunity to explore the fascinating world of Internet of Things (IoT) devices. We get to know how IoT devices seamlessly connect physical objects to the digital world, enabling efficient data collection, analysis, and automation.
- The company showcased a diverse range of IoT Products like refrigerators, Smart TV, Air Conditioner, Robot Vacuum Cleaner, etc.

STUDENT COORDINATOR   • 2022 - 2023

HACK-ATHON 2K22 at IMS GHAZIABAD UCC

- As a student coordinator of the Web-athon in a hackathon event, I was entrusted with a crucial role that allowed me to showcase my leadership and organizational skills while diving into the exciting world of web development.
- It allowed me to refine my leadership abilities, strengthen my technical skills, and build meaningful connections within the web development community.

STUDENT COORDINATOR   • 2023 - 2024

HACK-ATHON 2K23 at IMS GHAZIABAD UCC

- As a student coordinator of the Squad of IoT in a hackathon event, I had the incredible opportunity to immerse myself in the fascinating world of Internet of Things (IoT) technology and guide a team of talented individuals towards innovative solutions.

PROJECTS

Project - 1

Sign Up and Login Form using HTML, CSS, & PHP

In this project, I have used the HTML code for creating a structure for the form then I used the CSS code for styling the structure of form and create a database in phpMyAdmin SQL Server and use PHP for connecting the client-side programming to server-side programming.

- Link to the project: Project-1

Project - 2

Single Page Responsive Website using HTML, CSS, & GITHUB

In this project, I have used the HTML code for creating a single page website structure then I used the CSS code for styling the structure as well as use the media queries in the CSS code for the responsiveness of the website then I commit the whole project at GitHub repositories for accessing my website anywhere.
